Subject: Docket #2007-286-WS

We are writing to let you know we oppose the petition for reconsideration Utilities Services of South Carolina has requested concerning the decision to deny a rate increase for Docket No. 2007-286-WS. We understand they are requesting this reconsideration under bond. As stated in our original protest, our current rates are too high and unfair. This is especially true in light of the large rate increase USSC received in 2005. We ask that you not only consider the needs of USSC but also those of the citizens of South Carolina. We appreciate your consideration in this matter.

Sincerely,

Steve and Melanie Wilson
